

"Certificazione UNI-EN 14001 riferita ai siti di Pogliano Milanese e di Leini"

## TECHNICAL DATA SHEET

product name	<b>ST 16 / 70</b>
--------------	-------------------

### **COMPOSITION**

- Emulsion of waxes

### **APPLICATION**

- Water based Release agent suitable for moulding Hot cure polyurethane foams

### **CONDITION OF USE**

- Stir with care before use.
- Before starting any trial, the moulds has to be cleaned of any other release agent.
- To condition the moulds spray one or two coats before pouring.

Range of working temperature at demoulding.	80 - 100 ° C
Dilution ratio with water	1 : 8 to 1 : 10 depending on spray amount

### **CHEMICAL AND PHISICAL PROPERTIES ( typical values )**

Appearance	white emulsion
Density at 20°C	0,9 - 1 kg / lt
pH	9 – 11

Shelf life : 12 month in original containers

**KEEP AWAY FROM FREEZING**
